AMENDMENT

Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Dear Sir:

In response to the Office Action dated May 13, 1991, kindly enter the following amendment.

IN THE SPECIFICATION:

At page 11, line 34, kindly change "705" to --805--.

IN THE CLAIMS:

In claim 40, line 2, kindly change "on" to --an--.

REMARKS

In an Office Action dated May 13, 1991, claims 1-28 were withdrawn from consideration and claims 29-66 were rejected. Applicant respectfully traverses both the restriction requirement and the rejection and requests reconsideration of the application in view of the following remarks.

As a preliminary matter, the above amendment merely corrects typographical errors. No new matter has been incorporated by this amendment.

Restriction to one of the groups of claims 1-28 and 29-66 was said to be required because the inventions covered by these two groups of claims were said to be distinct each from the other. The inventions of Group I and Group II were said to be related as product and process of use. The inventions were said to be distinct because the process as claimed could be practiced with another materially different product. This restriction requirement respectfully is traversed.
